

Dear Swim Lesson Participants,

Please remember that only **one spectator per swimmer** is allowed.

As we move to the "other side" of the vaccine, I want to assure you SAAC will remain vigilant and conservative with our Covid Protocols.

1. **Masks** are required for school-aged children and older until they enter the pool.
 - a. Place the mask in a baggie after entering the water and leave it pool side
 - b. All spectators are required to wear a mask at all times.
2. **Private & Semi-Private lessons** are scheduled in sets of 6, 30-minute lessons.
 - a. Renewing for another set is your responsibility and should be done via email by lesson #4
 - b. Cancellations with no advanced notification, will not be rescheduled
3. **Social distancing** is a key factor in staying safe. Spread out when placing personal items on the bleachers.
 - a. A bag is highly recommended to keep items together
4. **Restrooms** are small, contained spaces. **ONLY** one person at a time. Knock first.
 - a. NO CHANGING in the restrooms
5. **NEW! Locker rooms (SAAS)** are **ONLY** available after your swim and for changing only.
 - a. Nothing is to be left in the locker room
 - b. NO Showers
6. **NO FOOD** is allowed **anywhere** in the Aquatic Center
7. **Siblings** need to be sitting on the bleachers
 - a. We LOVE children, but jumping on the bleachers or running around the pool deck is dangerous

I have shared with most of you the facts about Covid and Chlorine:

- CDC= There is no evidence that the virus that causes COVID-19 can be spread to people through the water in pools, hot tubs, spas, or water play areas. Proper operation and maintenance (including disinfection with chlorine and bromine) of these facilities should inactivate the virus in the water.

Sincerely,

Lydia A. Schmierer
